EXPERIENCE

Frontend Developer Internship   **May 2023 – Present**
Frontend Simplified
- Transformed a completely static HTML, CSS, Javascript and React single page application into an interactive user interface using animations, transitions and carousels
- Led the implementation of Axios to facilitate API request execution, data retrieval, and display from a cloud server. Enhanced user experience through the implementation of skeleton loading states, pagination, and routing, leading to a significant 40% increase in page loading speed and a 25% decrease in bounce rate.
- Utilized Git version control and and the Github interface to work and thrive in a virtual collaborative team environment

Freelance Frontend Developer   **July 2023 – Present**
Self Employed
- Delivered 6 professional websites using HTML5, CSS3 (+SCSS, BEM), Javascript, Firebase, Next.JS and React best practices
- Improved website performance by compressing, caching, and lazy loading images and components
- Included SEO, responsive, multi-platform and hosting support, enabling their website to be used by any browser or device in the world

Frontend Developer Support   **July 2023 – Present**
Frontend Simplified
- Supported 1,000+ students using HTML, CSS, Flexbox, JavaScript, Next.js, Firebase and React best practises
- Utilized debugging best practises using Google Chrome inspect element tooling
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests

PROJECTS

Book Summary Application | Website | Github   **Nov 2023**
Full Stack Development
- Designed and launched a user-friendly platform allowing readers to quickly grasp core concepts of extensive literary works with AI, achieving an average 95% satisfaction rate based on feedback on accuracy and readability

NFT Marketplace Application| Website | Github   **Oct 2023**
Frontend Development
- Incorporated user interfaces with carousels, animations, and seamless data fetching using Axios, providing users with an immersive experience to explore and interact with posted NFT's and user profiles.

Twitter Clone | Website | Github   **Oct 2023**
Full Stack Development
- Developed a social media app with a user authentication system enabling user creation, authentication, and login/logout functionality. Integrated commenting system allowing users to engage with other users' content.

Movie Search Engine | Website | Github   **Sept 2023**
Frontend Development
- Implemented API integration to fetch and display a curated list of movies, enabling users to browse and select.
