EXPERIENCE

FrontEdge Designs   **July 2023 – Present**
Frontend Developer
- Leveraged Javascript, Typescript, and Tailwind CSS to implement dynamic route changes, resulting in a 30% increase in user engagement and a 20% reduction in bounce rate.
- Integrated OAuth using React, and Redux, leading to a 40% boost in user sessions and a 15% improvement in authentication efficiency.
- Designed a scalable Node.js backend API, enhancing system scalability by 25%, system flexibility by 30%, and reducing user request latency by 20% through seamless frontend-backend interaction.

Scaling.so   **January 2023 - June 2023**
Frontend Developer
- Transformed a completely static HTML, CSS, Javascript and React single page application into an interactive user interface using animations, transitions and carousels
- Led the implementation of Axios to facilitate API request execution, data retrieval, and display from a cloud server. Enhanced user experience through the implementation of skeleton loading states, pagination, and routing, leading to a significant 40% increase in page loading speed and a 20% decrease in bounce rate.
- Utilized Git version control and and the Github interface reducing build times by 20% and improving the overall software development process
- Delivered high quality web applications on tight deadlines, adhering to Agile methodology with bi-weekly sprints, achieving an 100% success rate in in project delivery

PROJECTS

Book Summary Application | Website | Github   NOVEMBER 2023
Full Stack Development
- Designed and launched a user-friendly platform allowing readers to quickly grasp core concepts of extensive literary works with AI, achieving an average 95% satisfaction rate based on feedback on accuracy and readability

Twitter Clone | Website | Github   **September 2023**
Full Stack Development
- Developed a social media app with a user authentication system enabling user creation, authentication, and login/logout functionality. Integrated commenting system allowing users to engage with other users' content.

NFT Marketplace Application| Website | Github   **July 2023**
Frontend Development
- Incorporated user interfaces with carousels, animations, and seamless data fetching using Axios, providing users with an immersive experience to explore and interact with posted NFT's and user profiles.

EDUCATION

Frontend Simplified Bootcamp Certificate   **January 2023**
Web Application Development
- Classes: HTML, CSS, JavaScript, React, TypeScript, Backend Development, Data Structures & Algorithms
- Leadership: Support Technician to 200+ students

Harvard University   **June 2023**
Introduction to Computer Science, EdX
- Advanced algorithms, data structures, memory management, software debugging techniques, web development and mobile app development, UI/UX

OTHER

- **Languages** :Javascript, Java, HTML, CSS (+SCSS, tailwind CSS), React, TypeScript, Next.js, Redux, Node.js, Firebase, Express, MongoDB, ThreeJS
- **Technical Skills:** NPM, Yarn, Git (+GitHub & BitBucket), Agile Methodologies, Scrum
